## Vision

Fayette will be a benchmark community in visual appeal, cleanliness, and a delightful environment.

## Mission

Provide our citizens and visitors a community environment that exceeds their expectations. This will be accomplished by promoting the creativity and commitment of our community citizens and leaders. Maximum results will be accomplished at minimum costs.

## Committee Chairman Challenge

The City of Fayette has formed a City Beautification Committee to quickly improve our community. This committee has the full endorsement of Mayor Ray Nelson and our City Council. Both our Mayor and City Council have committed to be actively engaged with our Beautification efforts. Through this committee we will clean up and beautify our city. We will build on the city revitalization project that has already made very significant improvements. The result of this work will be a city our citizens will be proud to spend time in and our city will be a more exciting community to locate new business prospects. The only way we can be successful is to engage our citizens in this effort to work on specific beautification projects. Many of the business owners and private citizens have signed up for projects with committed completion dates. You see, if we all do a little, much will be accomplished in a short period of time. To get the best results in a short period of time we need your help. So please contact Ray Nelson or Rick Cargile and sign up for a project.

Both small and large projects will make a difference. Let's make Fayette one of the most attractive, enticing cities in Alabama.
