Proposed construction shall meet all applicable codes, including the latest edition of the Standard Building Code, the Standard Plumbing Code, all National Fire Protection Association Sections and the National Electric Code. This permit is conditioned upon the correctness of the information supplied and may be revoked upon finding that any relevant item of information is substantially incorrect. This permit becomes null and void if work or construction authorized is not commenced within 6 months, or if work is suspended or abandoned for a period of 6 months at any time after work is commenced. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not, the granting of a permit does not presume to give authority or cancel the provisions of any other state or local law regulating construction or the performance of construction.

Signing this application certifies that you have read and examined this application and know the same to be true and correct.

Parking Spaces _____

Multi Family

The applicant shall attach an accurate site plan, drawn to scale, depicting the outline of the proposed construction on the property, provided that a single-family house to be built on a rectangular lot may be depicted on the sketch plan below. The setback dimensions shown on this plot plan are the actual dimensions from the property line and not from the curb line. If the site has frontage on more than one street; the location of the streets and the direction of the front of the structure shall be indicated.
